The summer wildflowers are especially abundant and colorful this year with the early warm weather and the recent rains. Crops look good around Rochester too. We live in a very productive part of the

Aug29Club Assessme ntSept05Human Research, Marcia Andresen-Reid	The program committee should be congratulated on a perfect picnic. Wonderful weather, fantastic food, a sensational site, and a gregarious group. ? years ago the Kiwanis clubs of Rochester were very instrumental in raising the \$50,000 used to build Quarry Hill Nature Center. It has developed into one of the best in Midwest.
Web Site: January 1 st is just around the corner! Check out the Kiwanis Rose Parade Float web page at: <u>http://kiwanisrosefloat.com</u> The collaboration and support of Kiwanians anywhere is appreciated and will be suitably recognized. There are many ways to become involved through the decorating of the float (and others) each December which requires nearly 7,000 volunteers, support or financial assistance. Dick Odell	The big summer event for the Kiwanis Day Makers will be the Field of Flags Dedication on August 26 at Soldiers Field. Bob Nowicki and Paul Sodt have been representing us at the planning meetings. It is encouraging to see the list of members who have pledged to buy a flag for \$25. Volunteers are needed to contact other Rochester community members to help in acquiring the remaining 2300+ flags. This is going to be really big. Bob Dole! Soldiers Field Memorial! Field of Flags! It will be a great recognition for the veterans and a special event spotlighting

Human and Spiritual Values:

I am on a positive high as I write this on the day following the Day Makers' annual picnic. It is amazing how the simple act of joining together with friends and colleagues to eat together out of doors (aka a picnic) can be so relaxing. Please remember to say thanks to the program committee and all the others who made this picnic go so well. Greg Munson's short impromptu talk about something that might seem small and insignificant (chimney swifts) seemed to hold everyone's full attention – as we all temporarily released the other pressing concerns that compete for our time and attention. The quote that follows [from Norman Vincent Peale] seems to be referring to the kind of speech that Greg so effectively uses to excite people about all of nature.

"Watch your manner of speech if you wish to develop a peaceful state of mind. Start each day by affirming peaceful, contented and happy attitudes and your days will tend to be pleasant and successful."

The quote reminds us that it is possible for us to make life more complicated than it has to be. We have all known individuals who go to unbelievable lengths physically, mentally, financially, and emotionally in the pursuit of success and happiness. Peale reminds us, first, to look inward and put our "house" in order. When we are at peace with ourselves we are far more likely to find our lives taking a positive direction. One positive step toward gaining peace with your self is working toward being at peace with nature.

About Growing Older (Continued from page 2):

Fifth - You know you are getting old when everything either dries up or leaks.

Sixth - I don't know how I got over the hill without getting to the top.

Seventh - One of the many things no one tells you about aging is that it is such a nice change from being young.

Eighth - One must wait until evening to see how splendid the day has been.

Ninth - Being young is beautiful, but being old is comfortable.

Tenth - Long ago when men cursed and beat the ground with sticks, it was called witchcraft. Today it's called golf

And finally, if you don't learn to laugh at trouble, you won't have anything to laugh at when you are old.

Other thoughts for the month: (from cattleman's web)

Will Rogers, who died in a plane crash with Wylie Post in 1935, was probably the greatest political sage this country has ever known. Enjoy the following:

1. Never slap a man who's chewing tobacco.

2. Never kick a cow chip on a hot day.

3. There are 2 theories to arguing with a woman...neither works.

4. Never miss a good chance to shut up.

5. Always drink upstream from the herd.

6. If you find yourself in a hole, stop digging.

7. The quickest way to double your money is to fold it and put it back in your pocket.

8. There are three kinds of men: The ones that learn by reading. The few who learn by observation. The rest of them have to pee on the electric fence and find out for themselves.

9. Good judgment comes from experience, and a lot of that comes from bad judgment.

10. If you're riding' ahead of the herd, take a look back every now and then to make sure it's still there.

11. Lettin' the cat outta the bag is a whole lot easier'n puttin' it back.

12. After eating an entire bull, a mountain lion felt so good he started roaring. He kept it up until a hunter came along and shot him.

The moral: When you're full of bull, keep your mouth shut.
